

This is A4 portrait.

F11: Styles – Pagestyles

Create new page style (based on default style) named 'A4Portrait' Apply on the current page

Create new page style (based on default style) named: 'A3Landscape'. Modify the settings of new style.

On the end of this page: Insert - Breakpoint – Page break - with new style: 'A3Landscape' - Enter.

This is an A3 Landscape

with text in the lower right to the last position before it wraps... !!!!!

And finally this is an A5 page

lower right !
